

Mr. WILSON of South Carolina. Mr. Speaker, today, the average cost of a gallon of unregulated gasoline in Columbia, South Carolina, is 72 cents higher than the price of May 2005.

Yesterday, I met with dozens of constituents at the West Metro Chamber of Commerce building who expressed their serious concerns about the rising gas prices and America's energy crisis. Fortunately, Republican leaders have announced a series of realistic, short-term steps to reduce the cost of gasoline. By opening up ANWR, banning price gouging, streamlining boutique fuels, and encouraging innovation for advancements in hydrogen technology, we are supporting realistic measures that will immediately help American families.

As we continue to actively address America's energy needs, Minority Leader PELOSI and House Democrats should support this critical mission. Gas prices continue to soar, and our country cannot afford for Democrats to continue to support policies that restrict American energy supplies.

In conclusion, God bless our troops, and we will never forget September 11.

IRAQ INSURGENT'S EUROPEAN FUNDRAISING

(Mr. PITTS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PITTS. Mr. Speaker, we know that the Iraqi insurgent terrorists are shameless in their conduct. From blowing up crowded streets full of citizens to beheading innocent noncombatants, their ruthless brand of violence is well documented. What is not so well known is the funding sources these terrorists use to carry out their atrocities.

Thanks to the leadership of my colleague, SUE KELLY, some of the most outrageous fundraising sources for the Iraqi terrorists have recently come to light.

One fundraising campaign, called 10 Euros for Resistance, uses posters of bloody American soldiers to solicit funding in Europe. So far, it appears the terrorist extremists have found sympathetic radicals in more than one European country to donate to their cause. The funding is then funneled to Iraq, where insurgent terrorists use it to finance more attacks on American forces and innocent civilians.

This is an outrage, Mr. Speaker; and I applaud Congresswoman KELLY's efforts to call attention to it. European countries should be doing all they can to stop this fundraising practice within their borders. I do not think that is too much to ask of our allies.

MEDICARE PART D

(Mr. GINGREY asked and was given permission to address the House for 1 minute.)

Mr. GINGREY. Mr. Speaker, I rise today to share yet another Medicare

part D success story. My colleagues might have noticed that I am sharing a different success story each week, which is pretty easy to do because the stories just keep rolling in. This week I would like to tell you about Mae Thacker of Bartow County, Georgia.

Mae and her husband came into my office unhappy. They had heard some disparaging things about Medicare part D and weren't sure if the program would even save them any money. Fortunately, the more the Thackers learned about part D, the more they wanted to enroll, another case of reality trumping rhetoric. I am happy to report that Mae Thacker is now signed up for a prescription drug plan, and her monthly medicine bill has dropped from \$780 to \$180.

Mr. Speaker, the May 15 enrollment deadline is less than 2 weeks away. Enrolled seniors are saving an average of \$1,100 a year with Medicare part D, \$3,700 a year for low-income seniors.

So my message to seniors is this: Sign up now and start saving.

TOP 100 HIGH SCHOOLS IN THE UNITED STATES

(Ms. EDDIE BERNICE JOHNSON of Texas asked and was given permission to address the House for 1 minute.)

Ms. EDDIE BERNICE JOHNSON OF TEXAS. Mr. Speaker, each year Newsweek recognizes the top 100 schools in the United States. At the very top of the list, number one and number eight are right in the middle of my district. Not a pretty area, but wonderful education.

I am very proud to announce that the School for Talented and Gifted at Yvonne A. Ewell Townview Center was recognized as the number one high school in the country. Additionally, the School of Science and Engineering at the same school was ranked number eight.

For those who live in Dallas, this honor comes as no surprise. The President visited earlier this year, and each day talented students are challenged with rigorous coursework and provided with an outstanding teacher environment. Townview truly excels and proves that, it really proves that children, given the right environment, can learn.

Townview Center has managed to bridge the achievement gap that exists in schools throughout this country. Two-thirds of Townview students are minorities. These students are not only passing, they are excelling.

Townview has recognized that we must provide all of our students with the opportunity to pursue higher education. It is this commitment to success that distinguishes Townview.

I would like to congratulate the School for the Talented and Gifted and the School of Science and Engineering on this honor.

And also commend the leadership and commitment of Superintendent Hinojosa, Executive Principal Alice Black, Principal Michael Satarino, and Principal Richard White.

MEDICARE PRESCRIPTION PART D

(Ms. HART asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. HART. Mr. Speaker, the results are in on the new prescription drug program, and they are very encouraging. Nowhere is the success of this new prescription drug benefit more apparent than my home State of Pennsylvania.

Take these statistics into consideration. As of April 1, more than 1.2 million Pennsylvanians have enrolled in the new program. In my district alone, 73 percent of Medicare beneficiaries now have prescription drug coverage, and the Centers for Medicare and Medicaid Services project that that number will be near 100 percent by the end of this year.

With the May 15 enrollment deadline fast approaching, we should be doing everything we can to help seniors enroll in the new part D program so they can realize the incredible savings the plan offers.

Take the story about Tom and Dolores from Pittsburgh. Tom and Dolores need about a dozen medications, and they feared that they soon would not be able to afford these medicines. They were also afraid that they would not be able to find a plan in their prescription drug program that would cover all the medications that they need as well as their costs. With help from their Medicare Today counselor, both Tom and Dolores found plans that work for them. They now expect to save over \$2,000 a year on their costs.

I encourage any Medicare recipient who is not yet enrolled to seek some information from Medicare Today and find out the savings it offers through Medicare part D.

DEFENDING AMERICA

(Mr. FRANKS of Arizona asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. FRANKS of Arizona. Mr. Speaker, I think it is wise for all of us to remind ourselves every day that our primary purpose for being here is defending this country against military threats and defending the constitutional rights of our citizens. In terms of defending this country, we have to continue to remind ourselves every day that there is a growing military build-up in China that is unprecedented in the world. We face an ideological enemy in terrorism that if left unchecked will mean humanity will ultimately never sleep again.

We face a growing nuclear threat in Iran that could destabilize the whole world in a matter of months or years.

Those who would undermine the defense of this country for political purposes disgrace this body and disgrace America. I pray that we will always remember, as George Orwell said, that we
